How to access the gate

To access the gate, dial the number of the gate, given to you by the PA. It takes on average 1 to 7 seconds for the unit to obtain and verify your number in the database and signal the gate open. The call will disconnect and the gate will open, no cost.

NB! Your cell phone OWN NUMBER SENDING must be ON, not PRIVATE NUMBER.

The C2G device cannot verify private calls.

TIP: Program your gate number on your cell phone as a speed dial. This makes dialling the gate very easy.
